# Customize Workspace

Update the look and feel according to your company colors

The screenshot displays the IBM Notes application interface. At the top is a menu bar with 'File', 'Edit', 'View', 'Create', 'Actions', 'Tools', 'Window', and 'Help'. Below the menu is a toolbar with an 'Open' button, mail icons, and a 'Search All Mail' search bar. The main workspace is divided into three panes. The left pane shows a folder tree for 'Bhavana R Gaikwad' with folders like 'Inbox (1293)', 'Drafts', 'Sent', 'Follow Up', 'All Documents', 'Junk (1)', 'Trash', 'Chat History', 'Views', and a 'Folders' section with 'Archive', 'Spam Protection', 'Tools', and 'Other Mail'. The middle pane displays a list of emails with columns for 'Recipient', 'Subject', 'Date', and 'Size'. The selected email is 'Fw: Retain.nsf update notice pmr: 20106,112,848' from 'Daniele Di Carlo/Germany/I' dated 'Apr 2 3:35 PM' with a size of '20K'. The right pane shows a 'Feeds' section with 'Day-At-A-Glance' for 'Tue, Apr 10, 2018', including a meeting 'Expeditor-Notes-Designer Playback' and an 'Invitation: Platform upgrade scrum'. At the bottom right is a calendar for 'April 2018' with the 10th highlighted. The bottom pane shows the email content: 'Hi Daniele, I have provided the download details for CCM installer in the PMR. Please refer to below mail chain. Thanks Bhavana'. It also includes a forwarding notice and the original email's header: 'From: "JACQUES VAN EYK1" <JACQUES.VAN.EYK1@ie.ibm.com>', 'To: "BHAVANA GAIKWAD1" <gbhavana@in.ibm.com>', and 'Date: 04/02/2018 02:10 PM'.

## Important: Budget input request

Noreen Ludlow to me, Jim Lendler, Laura Klein

project-budget-monthly.xlsx

18.7 K

↓

📎

budget-instructions.pdf

Add to Files

Hello team,

I am writing to you to request for **budget requirements** for the next year. As per our last discussion, we need to gather and summarize your inputs and send them for approval **till the end of the month**, so please start working on it as soon as possible.

Two documents are attached to this e-mail:  
*project-budget-monthly.xlsx* -- fill in your inputs here and send me the file back  
*budget-instructions.pdf* -- instructions and rules how to fill in the spreadseet

Should you need any further information, please do not hesitate to contact me.

Thank you,  
Noreen Ludlow

## APPLICATION DEVELOPMENT

Protect your investment into your enterprise applications and utilize skills of current web developers generation

# Application development

Enhance your Domino applications. Use modern web development tools.

New LotusScript  
methods for REST calls  
and handling JSON

Build web user interface  
with integrated Node.js  
and npm packages

OAuth support  
via REST API

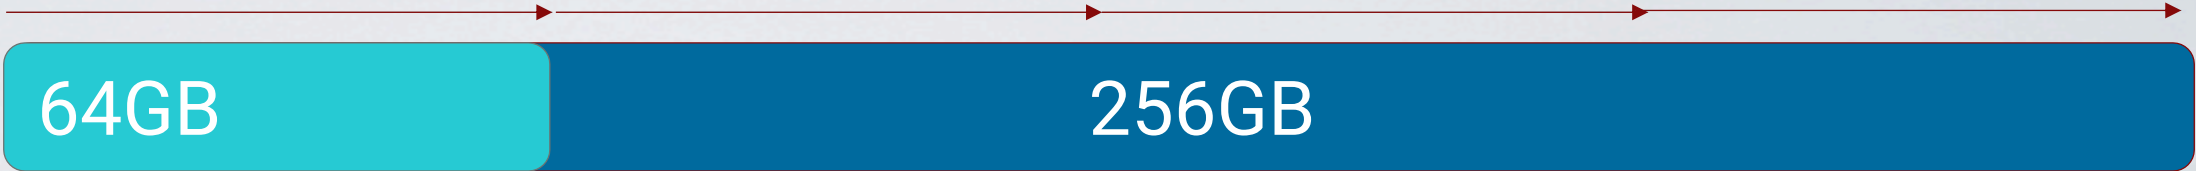

Bootstrap 4  
for XPages

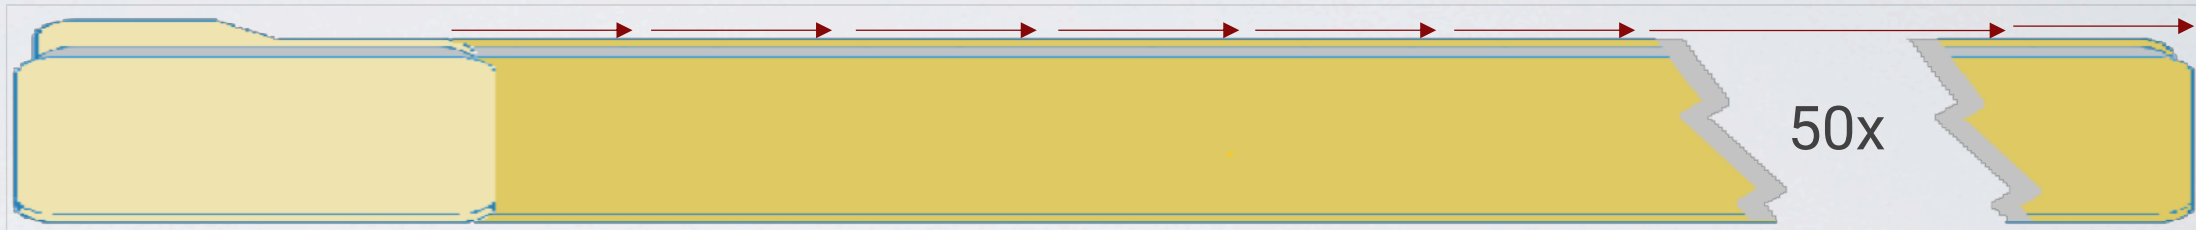

# Breaking NSF Boundaries

Maximum database size

Large Folders

Summary Data

**Ipsso facto lorem**  
Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature,

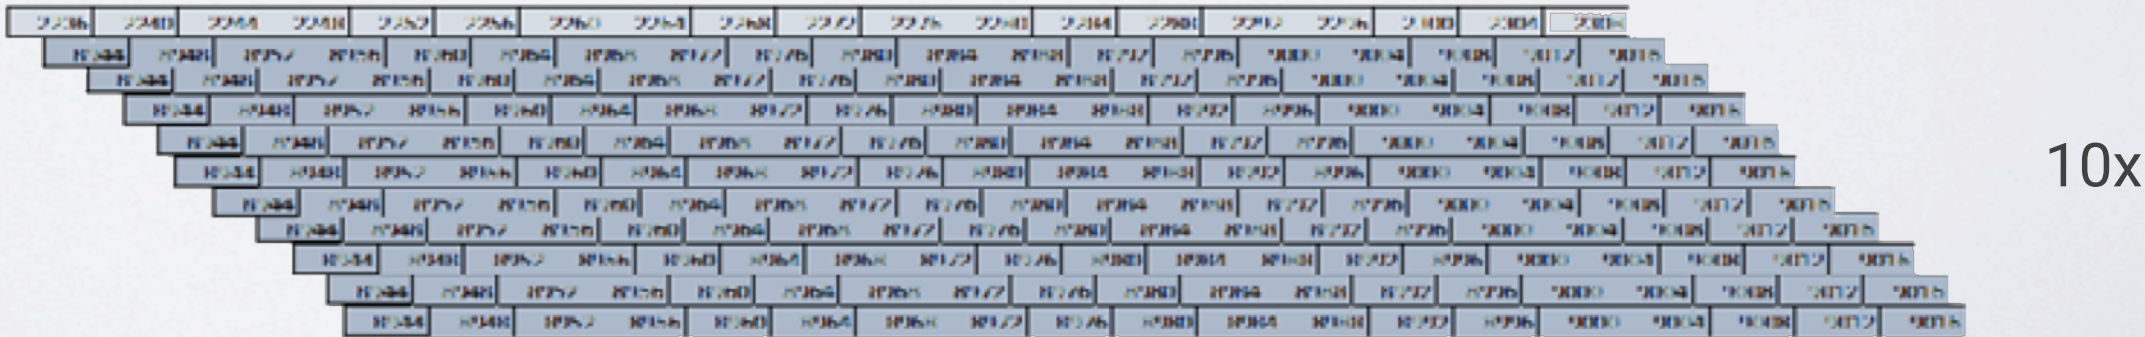

discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet..", comes from a line in section 1.10.32.

Doubled to 64K

More Field Names

ID Tables

# LotusScript Extensions – HTTP and Mobile SDK

New LotusScript classes

## NotesHTTPRequest

- Support for Get, Put, Post and Delete methods
- Limit redirects and timeout
- Ability to set custom headerfields

```
Dim httpreq As NotesHTTPRequest
Set httpreq = NotesSession.CreateHTTPRequest()
response = httpreq.get(myFancyURL)
```

## NotesJSONParser

- Supports JSON data types String, JSONNumber, JSONObject, JSONArray
- Ability to parse and walk the JSON tree

```
Dim jsonParser As NotesJSONParser
Set jsonParse =
    NotesSession.CreateJSONParser()
parsedResponse = jsonParse(response)
```

## NotesDatabase Query method

- DQF/DQL implementation in the backend
- Inputs a query string of up to 64k, flags and max settings
- Produces (Notes)DocumentCollection

# Domino Query Language (DQL)

A query language accessible outside Domino that doesn't require any knowledge of Domino design by a developer.

*FirstName='Bob' and in all ('Managers', 'Active Users')*

- Built with **node.js** in-mind
- Accessible everywhere – LotusScript, node.js, and more...
- **Optimized** for searching data and design elements
- **Familiar syntax** construction (like SQL)
- No need to learn Formula Language but existing formulas can be leveraged

# Web Development

Utilize the largest ecosystem of open source libraries in the world

- Support for **node.js** SDK
- **npm module** to provide CRUD access to Domino via JavaScript APIs equivalent to the *NotesDatabase* and *NotesDocument* classes

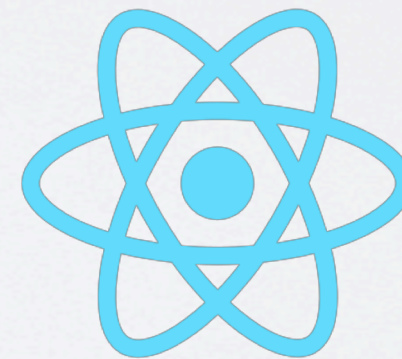

`npm install domino-db`

**Node**

Express

**Express**

**React**

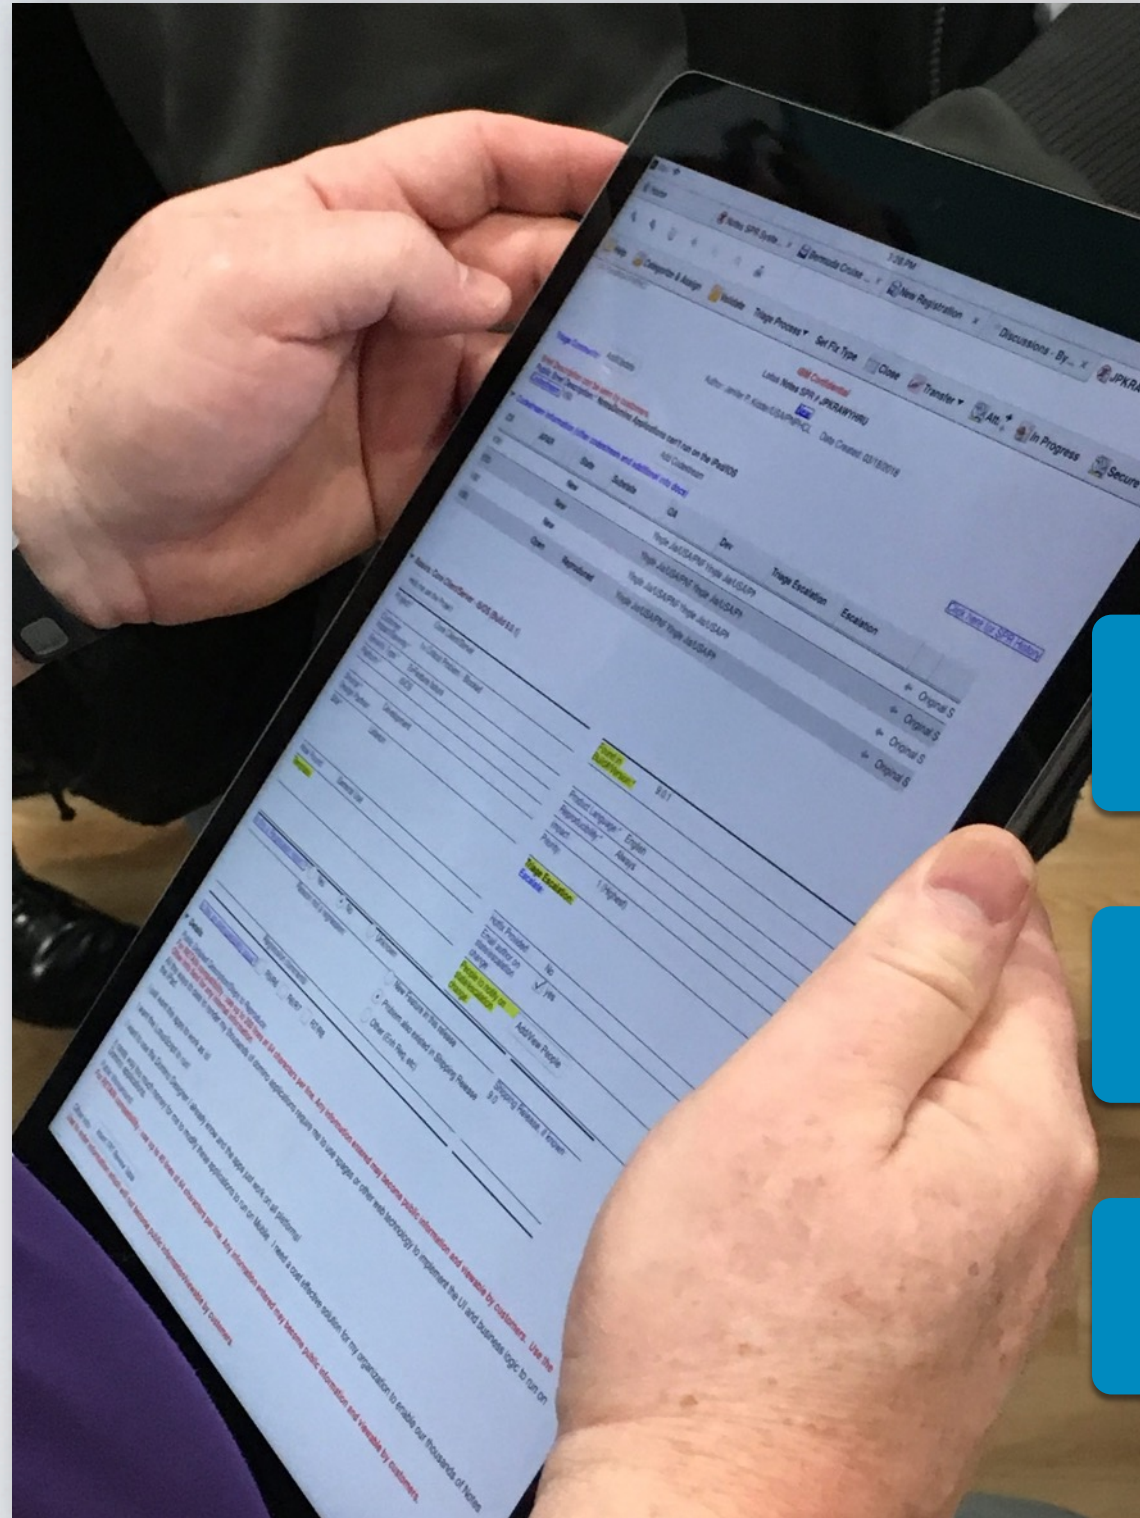

**Domino**

# IBM Domino Mobile Apps

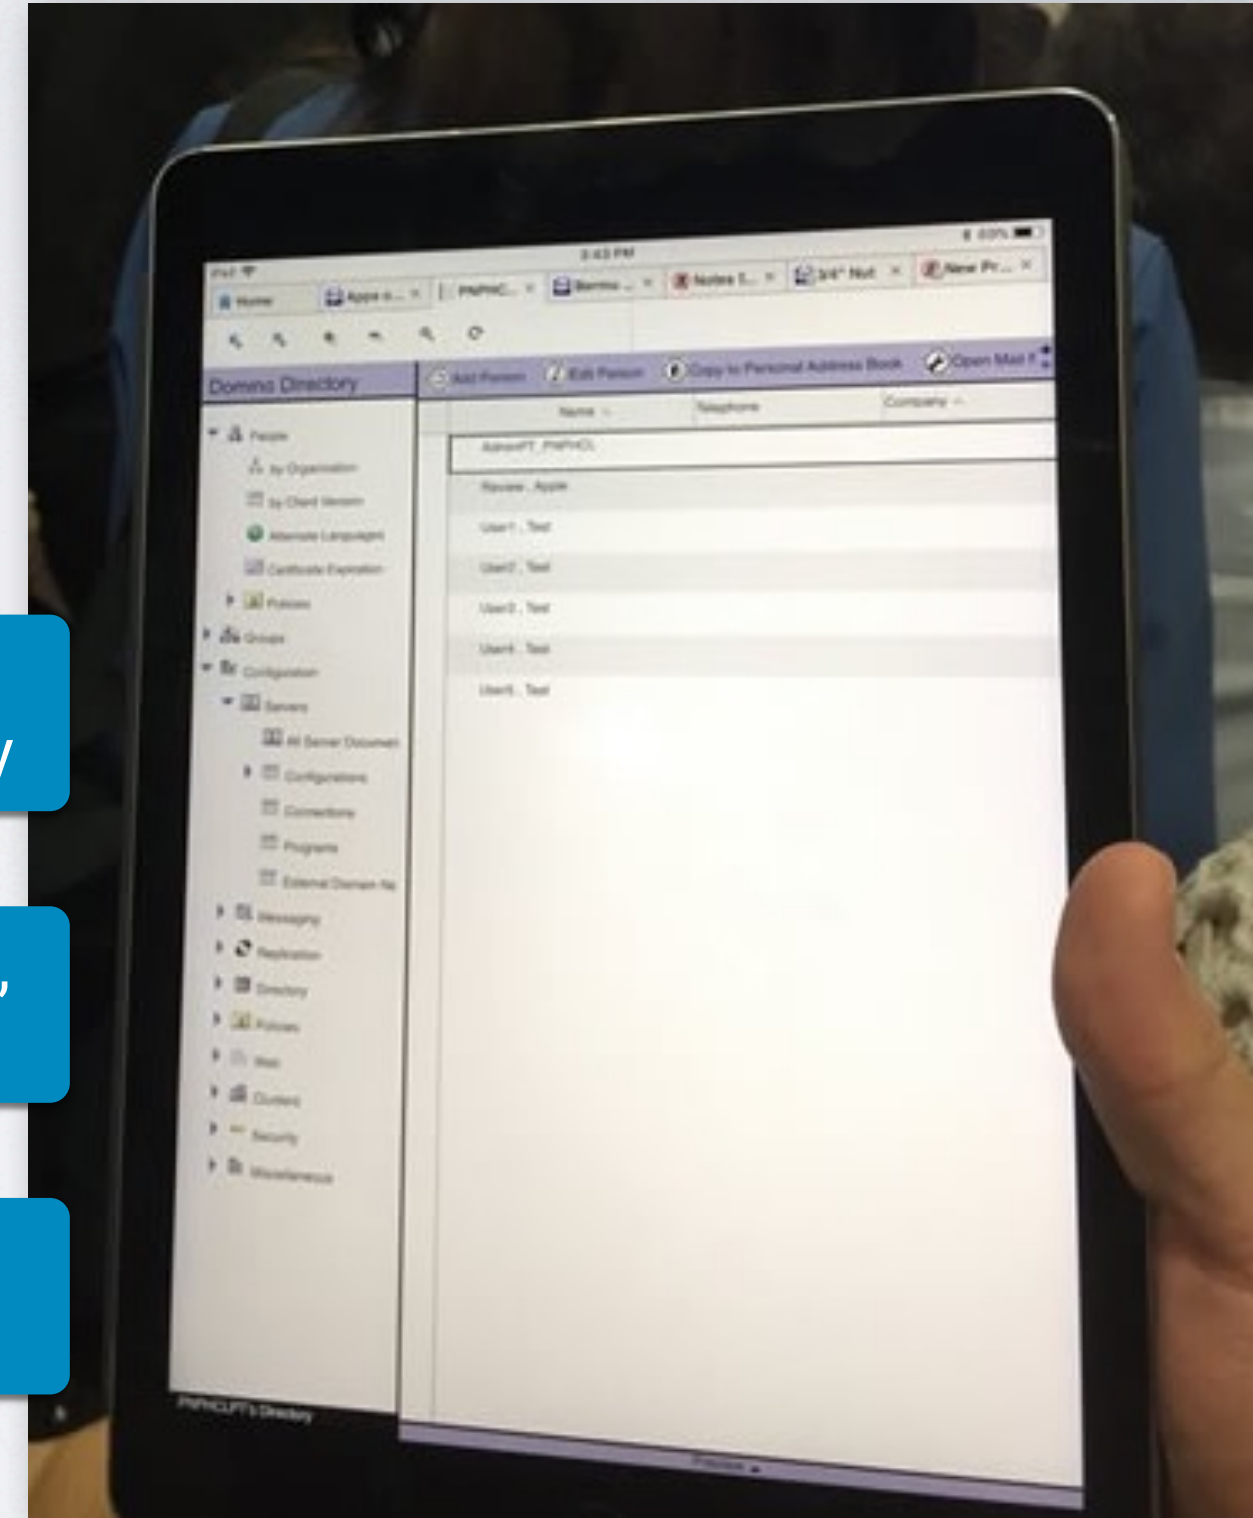

Run native NSF on iPad without additional coding

NotesID,  
ECL Security

@Functions,  
LotusScript

replication,  
off-line

# Domino application on tablet

Run native NSF on iPad without additional coding

We did not transform the application

- It is the same **classic NSF**. Notes Domino code is running on iOS

We did not break or touch the business logic

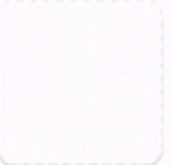

- **LotusScript** just runs unmodified
- Complex forms and logic work

You do not need to spend money re-writing each application on a new platform.

Works **disconnected**, or online. Opens up new possibilities.

Recent Applications

## **ADMINISTRATOR**

Keep low TCO with new  
administration tools, enhanced  
stability and better security

# Lower TCO, higher security

Increased stability, new admin tools

Increased database  
size and design  
elements limits

Automated  
database repair

Cryptography  
upgrade

Faster Notes  
Client

Notes Client  
auto update

ID Vault  
improvements

Docker Support

New Relic  
stats plugin

SAML improvements

Enhanced cluster  
administration

Full text search  
improvements

IBM's statements regarding its plans, directions and intent are subject to change or withdrawal without notice at IBM's sole discretion.

# Domino V10

Admin tools updates in Domino 10.0

- Enhancements in **cluster** administration
- Automated **dead mail** processing
- Client **Auto Update** (ICAA, Notes) \*planed for 10.0.1
- **Docker** Enterprise Edition creation files (Dockerfile)
- **LEI** & SAP-Connector 64bit
- Domino stats and monitoring via **New Relic**

# Domino V10 TCO

Security improvements planned for the next release

- **ID Vault** management updates
- **Note deletion** logging
- **GSKit** version upgrade (crypto library)
- **SAML** IDP upgrades (inc. ADFS 4.0.) for SSO
- **Active Directory** integrations made simple

# Full-text Search and Views

**Automatically update** index on search for up to 200 documents with un-indexed changes

- Additional documents are queued for immediate indexing

**A corrupted** full-text index will be rebuilt automatically on both client and server.

**Attachment indexing** uses Apache Tika filters, supporting more and newer file formats.

Dynamic indexing of **high-usage views**

- Domino tracks view updates and reads in real time, permanently computes the 10 most active views and automatically assigns additional update threads.

# Symmetrical servers

Utilize enhanced Domino cluster technology

One or more data directory **folders** are declared to be **symmetrical**.

Any Notes database which exists on any server in the cluster must exist on every server in the cluster.

Domino 10 “repair engine” will detect any missing databases and **repair them automatically**

Clusters > Configuration

Sync and Repair engine:

- NSF databases
- DAOS objects
- AutoRepair task
- Manual repair command

# Notes Client Deployment

What is planned for 10.0.1

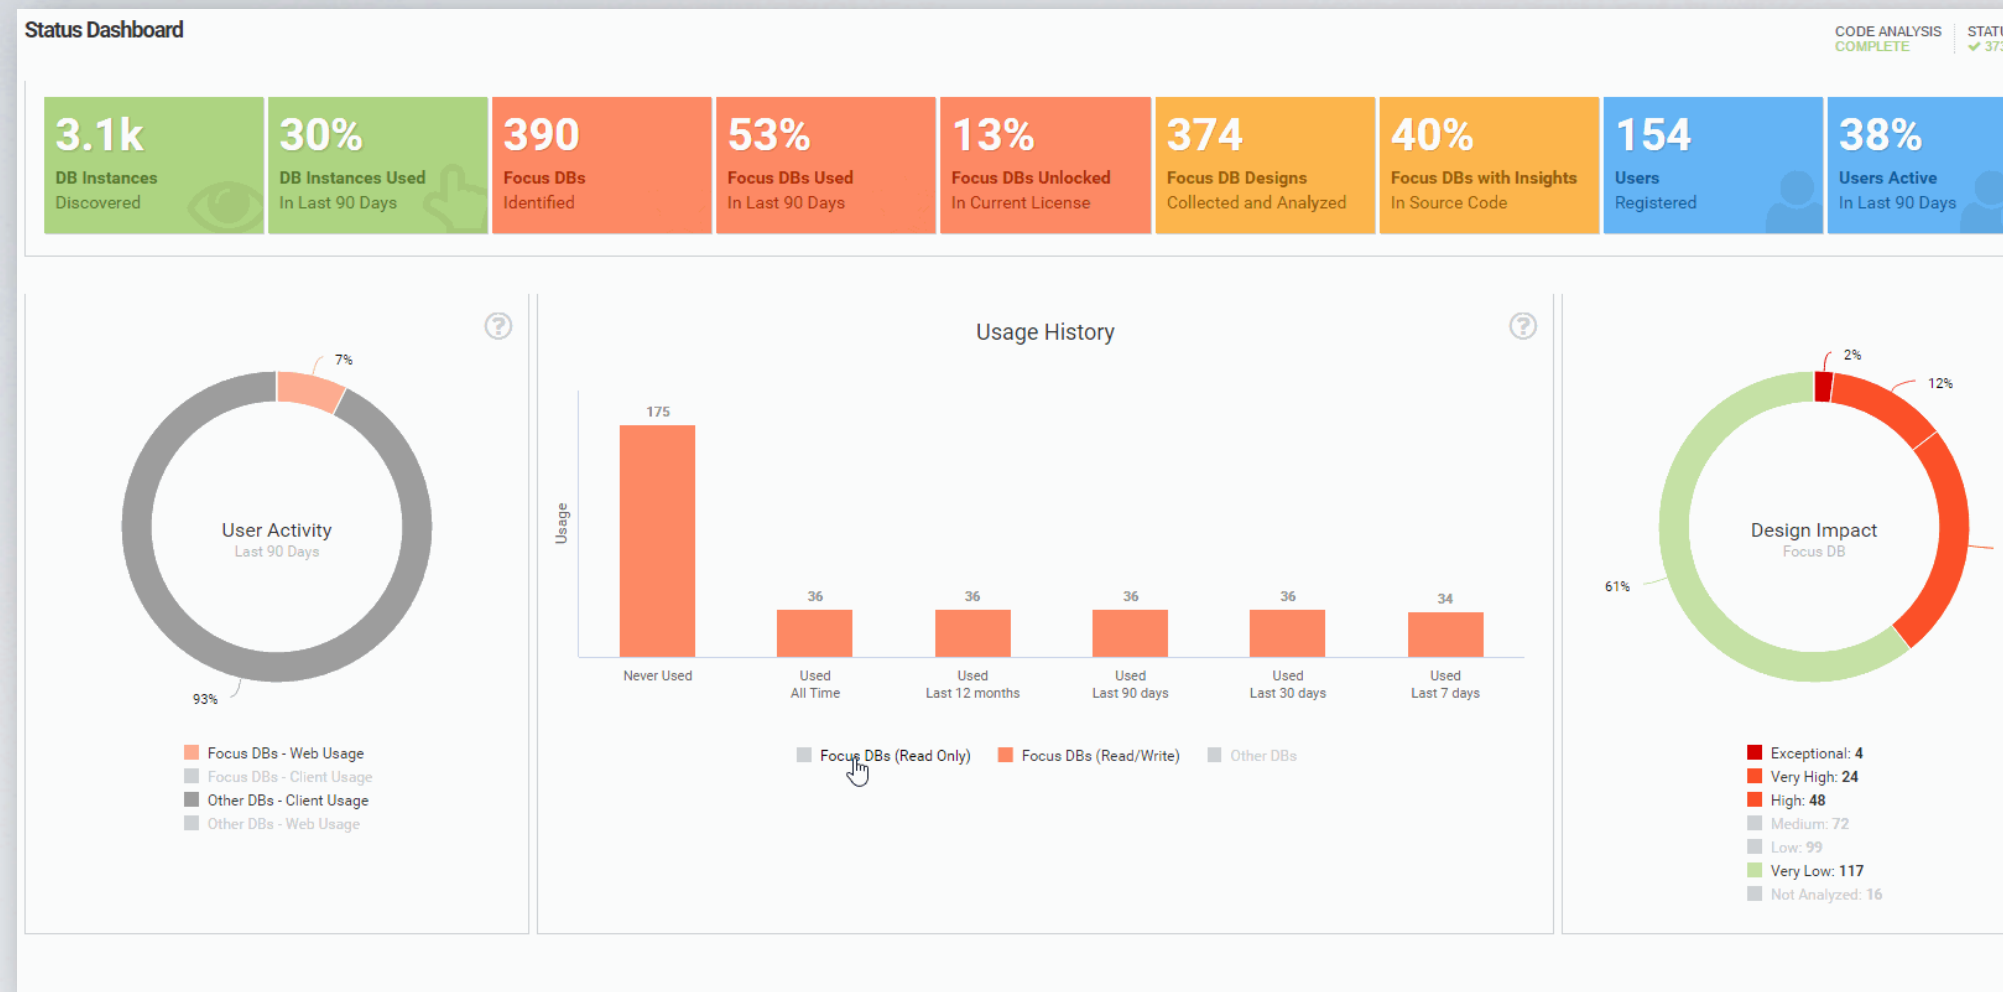

- Upgrade from 9.0.1 FP10 to IBM Notes V10 via **new update process**
  - Admin deployed, user controlled, admin override
  - Ability to throttle bandwidth / number of updates
  - Already being used successfully to deploy updates in IBM cloud
- **Faster** and leaner Notes Client
- Installation of heavy but under-used features will be **optional**
  - Feed Reader
  - OpenSocial components
  - Embedded experience

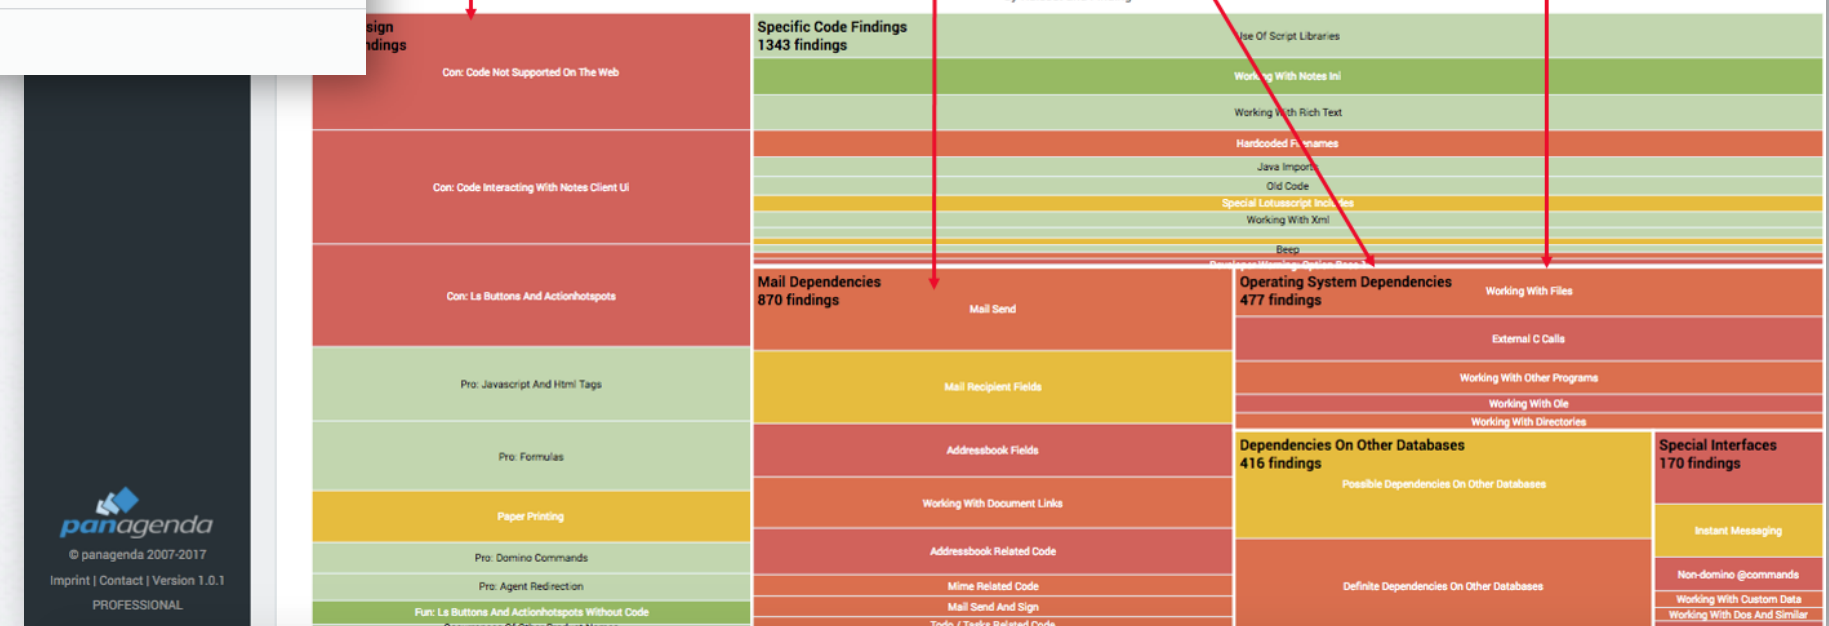

# Application Insights

Analyzes the code of your Domino apps and your server environment

Limited edition available for free for all customers with active Support & Subscription

Overall Domino system check plus detailed analysis for 25 most complex and 25 most used applications

# Domino Portfolio Roadmap

“The application platform that business users tap to solve their collaboration intensive business problems – anyone, anywhere.”

#dominoforever

## Domino V11

- Engage the “Citizen developer”
- Open Email and powerful Analytics
- TCO / operations optimization

## Domino V10

- Domino rocks JavaScript with Node.js
- World-class Mail and Mobile Apps
- Trusted, Faster, Bullet Proof

2018

2019

A woman with dark hair tied back, wearing a teal sleeveless top, is sitting at a dark wooden desk. She is smiling and looking towards the camera. In front of her is a silver laptop. To the right of the laptop is an open notebook and a smartphone. To the left of the laptop are some papers. The background shows a modern office interior with glass partitions and a large white 'U' logo on a glass wall.

What else do you have?

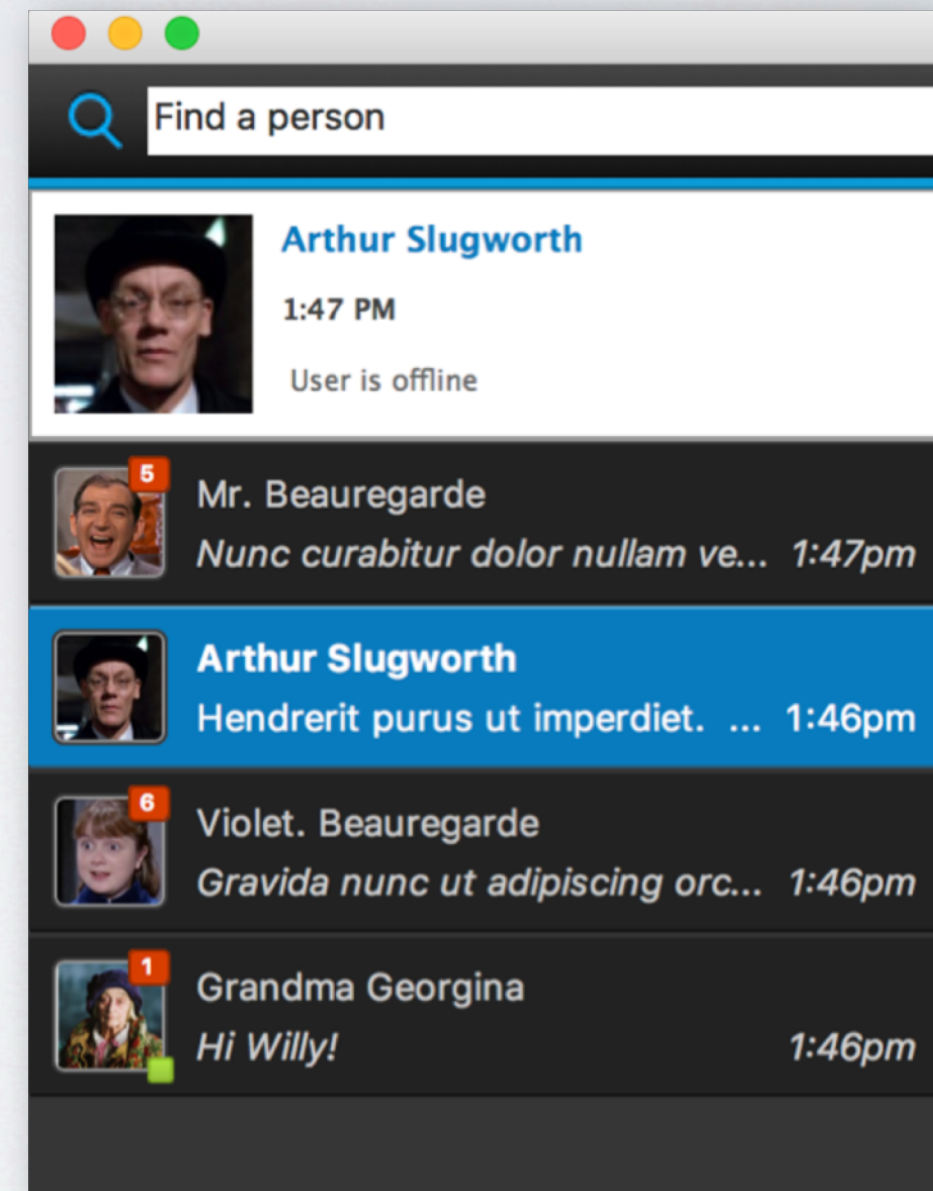

# IBM Sametime Chat V10

What is planned for the next release

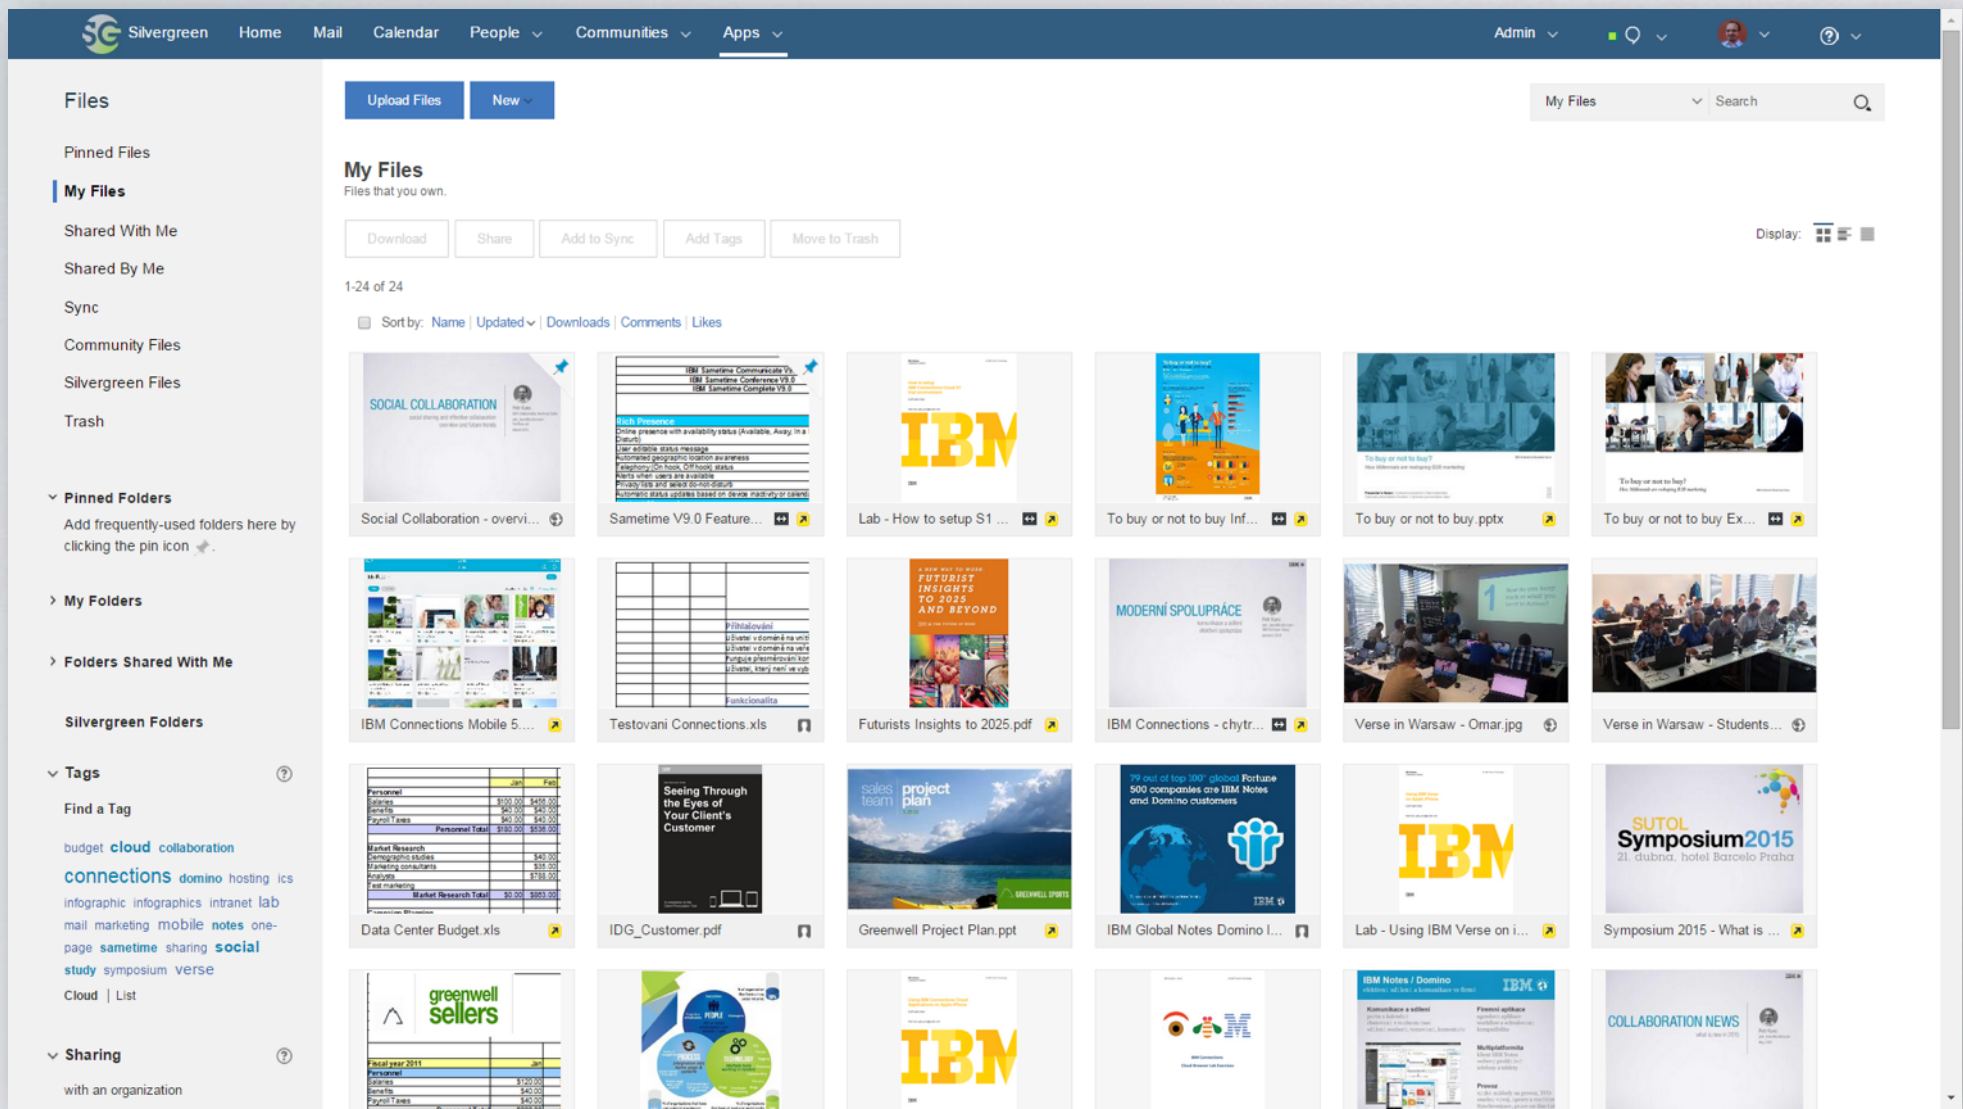

- Entitlement to **web/mobile access** for ST Limited
- **Simultaneous** client logins, **persistent** chat
- Releases coordinated with Domino releases
- Support for **64-bit** Domino server

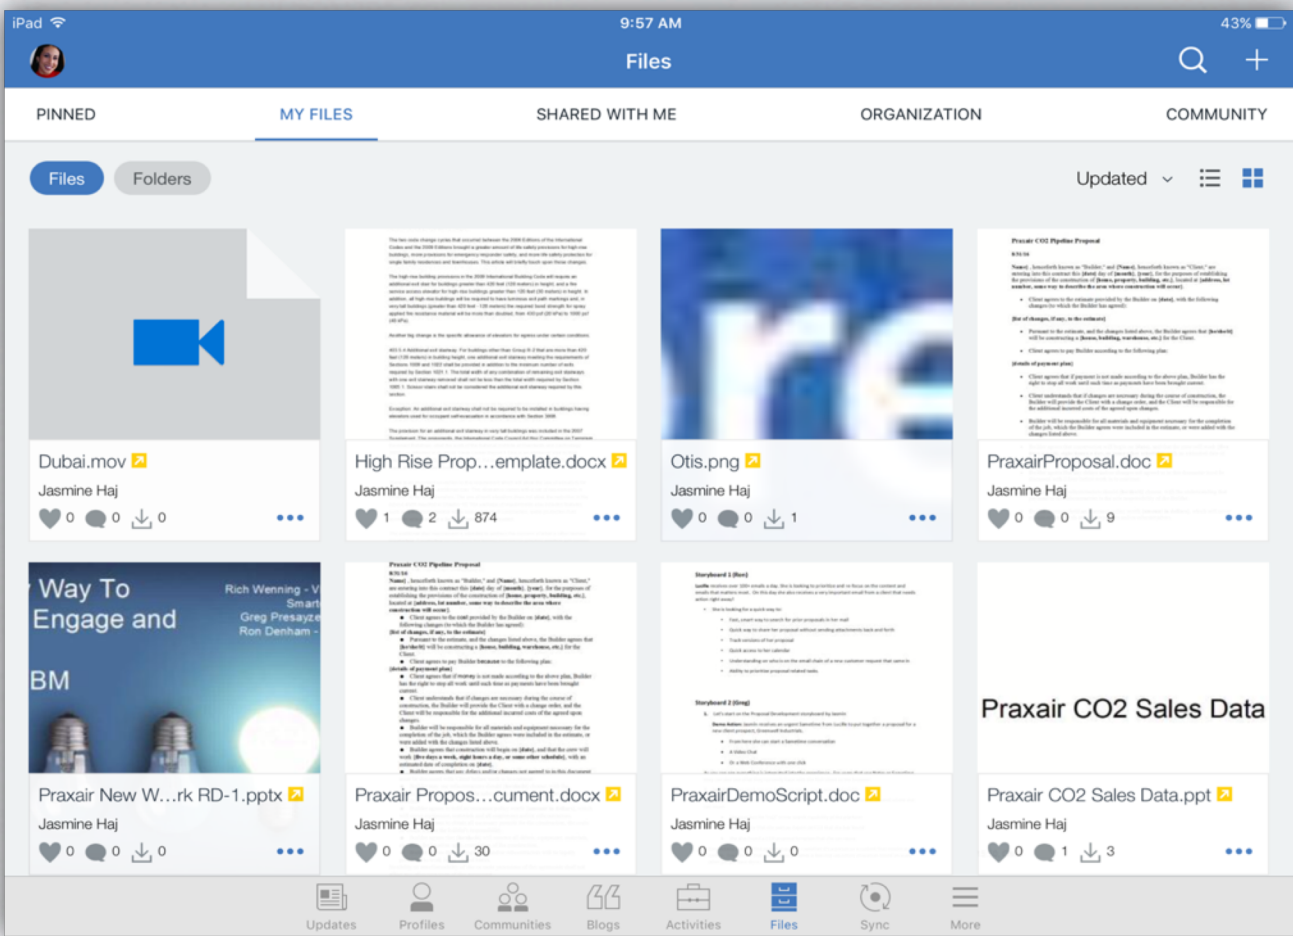

# IBM Connections Files

Upload, share, comment, tag, like, synchronize documents. On your PC, smartphone or tablet.

Limited edition available for free  
for all customers with active  
*Support & Subscription*

You can invite external people to  
work on selected documents

Collaboration

## IBM Domino Designer

Build collaborative desktop, mobile, and Web applications for IBM Notes and Domino with this free rapid application development solution, featuring XPages, which lets you use HTML, CSS, and JavaScript along with Web controls, Dojo, and built-in Ajax services.

[Get it now](#)

Domino PVU license is not needed when deployed in a test environment.

The Community Server packages must be installed as Utility Server and it's available without warranty.

Now you can get [Domino Server](#) and [Domino Designer](#) for building, testing and debugging in a non production environment.

# IT COMPASS

THANK YOU!
